## SUMMARY

Hi, I’m Natnael, a Software developer based in Addis Ababa. I specialize in crafting modern, responsive websites using PHP, JavaScript, MySQL and Bootstrap. Whether it’s building a custom software or an e-commerce platform, I enjoy bringing web ideas to life with clean code and efficient performance. I’m experienced in both front-end and back-end development and love solving real-world problems with elegant code. I believe in continuous learning, and I’m currently exploring more about API integrations, AI Engineering and Flutter development.
